

```
seinakia@unix2:~/CPE101/tictac/SOL $ python3 tictactoe.py
Welcome to this Tic-Tac-Toe Simulator.
Your goal is to line up 3 of your tics in either a line or a diagonal.
You will pick either X or O. X will go first
Do you wish to play against a (1)computer, or with (2)Players? 2
The board positions are as follows:
 1 | 2 | 3
-----
 4 | 5 | 6
-----
 7 | 8 | 9
Choose X or O: X

  |  |
-----
  |  |
-----
  |  |

It's Player 1's (X's) turn!
Where do you like to place your letter (pick in range of 1-9):
```

```
-----
  |  |

It's Player 1's (X's) turn!
Where do you like to place your letter (pick in range of 1-9): 4

  |  |
-----
X |  |
-----
  |  |

It's Player 2's (O's) turn!
Where do you like to place your letter (pick in range of 1-9): 5

  |  |
-----
X | O |
